# Emergency Seed and Feed Loans Ready for Distribution

Governor William I. Myers of the Farm Credit Administration announces that the sixty million dollar fund appropriated by Congress is now available for emergency crop and feed loans under the following conditions:

1. Loans will be made only to farmers who are unable to obtain elsewhere, supplies, feed or the necessary credit to purchase such items.
2. Loans will be made only to applicants cooperating directly with the production control program of the AAA or who are not proposing to increase their 1935 production in a way detrimental to the success of the program.
3. Maximum emergency crop loan to any one farmer is \$500.00 and the minimum is \$10.00 but no loan for the growing or harvesting of crops may be made in an amount greater than is actually needed in each case to purchase seed and fertilizer necessary for production.
4. Loans will also be made for fallowing and for production and purchase of feed for livestock, but not for the purpose of purchasing livestock or machinery, or for the payment of taxes, debts, or interest on debts.
5. As in the case of loans for crop production, those for the purpose of growing or purchasing feed for livestock must correspond to the actual cash producing or purchasing cost, with due consideration to prevailing cost of feed, seed, fertilizers or other items in the section in which the loan is made.
6. Loans for production or purchase of livestock feed will be limited to the amounts required until the time when the borrower's pasturage, forage or grain crops are available.
7. Security for the emergency crop loans will consist of a first lien on the crops financed or on the livestock to be fed.

***Application for Emergency Crop Loans  
Should be Made to the County Crop Loan Committees  
Already Set Up in Most Counties***
